FOOD FOR THE HUNGRY

December 2025

These women farmers in Rwanda's Bwira region are building a better future for themselves and their families. Together, we can support them.

Safety for fishermen

We support fishermen in Gatare on the shores of Lake Rweru by:

- improving safety during fishing;
- developing the fish trade by helping them improve fish processing and preservation.

Your practical help

With your support, you help us provide life jackets to fishermen.

Give the gift of an animal!

Receiving a goat or a cow transforms a family's life. The nutritious milk is given to the children and supplements their diet. The manure improves the crops. When the animal gives birth, the baby is given to another family in the village, creating a chain of solidarity.

Your practical help

Give the gift of an animal to change a family's life.

With

Chad Agricultural training

In Mongo, in the Guéra Province in the south-central part of the country, our agricultural training programs provide farmers with the skills they need to become self-sufficient and resilient. Their land is restored and produces abundant, healthy crops.

Your practical help

You enable us to fund a week of agroecology training for one person.

DR Congo Beekeeping training

The South Kivu region is densely populated and inhabited mainly by farming families. We support them so that they can increase their agricultural production and diversify their activities with honey and rice production.

Your practical help

You help us train farmers in beekeeping by setting up pilot beekeeping sites.

Provide clean drinking water!

Access to clean drinking water is crucial for good health. We are committed to providing access to water and sanitation in the Amudat region in the northeast of the country. We are funding the construction of boreholes and the refurbishment of existing wells.

Your practical help

You can contribute to the construction of a borehole.
